Territorial Acknowledgment

We humbly acknowledge that the land on which Lions Gate Hospital is located is the traditional and unceded territory of the Squamish and Tsleil-Waututh Nations.

Vancouver Coastal Health is committed to delivering exceptional care to 1.25 million people, including the First Nations, Métis and Inuit, within the traditional territories of the Heiltsuk, Kitasoo-Xai'xais, Lil'wat, Musqueam, N'Quatqua, Nuxalk, Samahquam, shíshálh, Skatin, Squamish, Tla'amin, Tsleil-Waututh, Wuikinuxv, and Xa'xtsa.

Health Vision Lions Gate Hospital – Overview

- In May 2024, VCH launched Health Vision Lions Gate Hospital (LGH), a **high-level planning** process for the hospital campus
- Health Vision LGH will help services remain aligned with the **evolving health-care needs of the local community and broader North Shore.**
- Health Vision LGH will be informed by the latest data, projections, best practices and an inclusive community engagement process:
  - partnering with **Sḵwx̱wú7mesh Úxwumixw and Tsleil-Waututh Nation**
  - engaging with **staff and medical staff**
  - engaging with **community partners**
  - engaging with multiple **levels of government**
  - hearing from **residents across the North Shore**.

Health Vision Lions Gate Hospital – Objectives

Provide a consolidated high-level vision and plan for LGH campus for the next 30 years

Maintain **safe, quality health care** in the region and enhance the **integration** of services

Allow campus to be **agile and able to identify next steps** for investment as funding becomes available

Data driven, incorporates **best practices** and considers findings from **previous planning exercises**

Guiding Principles

- Indigenous Cultural Safety is one of Vancouver Coastal Health's pillars and it guides in providing care, informed by the history and culture of Indigenous Peoples.

- Ensure health-care services at LGH remain aligned with the evolving health-care needs of the local North Shore community and the broader region.

- Develop plans to address the forecasted capacity increase.

- Maintain access to safe, high-quality healthcare.

- Ensure that the infrastructure is resilient and sustainable to allow it to continue supporting services in the short, medium, and long-term, and considers climate risks and planetary health in the region.
