

HELP US SHAPE THE FUTURE OF HEALTH CARE

Vancouver Coastal Health (VCH) is committed to engaging with the communities we serve to help inform the current and future delivery of quality care.

WHAT IS COMMUNITY ENGAGEMENT?

VCH facilitates meaningful conversations with the communities we serve to help us deliver more person- and family- centred care.

WHY IS ENGAGEMENT IMPORTANT?

Community feedback helps inform VCH decision-making and improves the access, quality and safety of care for communities we serve.

HOW DO WE WORK TOGETHER?

Community engagement can take many forms - committees, surveys, conversations and more.

VCH engages with patients, clients, residents, caregivers, First Nations, government, community organizations, as well as staff and medical staff.

HOW TO GET INVOLVED

Check out current engagement opportunities and participate based on your interest and eligibility.

Join the Community Engagement Advisory Network (CEAN) - a group of public advisors who provide valuable perspectives to help inform health-care delivery.
